Game Developer, BA in Computer Science with a specialization in Computer Graphics. My area of expertise includes: gameplay & new features development, UI/UX, graphics, breaking down tasks and creating an efficient development pipeline. Motivated and eager to learn from others and share my own experience.

Technical Skills

Languages: C#, C++, C, GLSL Shaders, Shader Graph, JavaScript, Python, Shell Script, HTML, CSS.

Tools: Git, SVN, Visual Studio, Rider, Jira, Perforce, Azure DevOps, Jenkins, Figma, Firebase, AWS.

Tech Stack: Unity3D, Addressables, Zenject, UniRX, UniTask, Unity DOTS, Timeline, SOLID, TDD.

Languages

Spanish: Native.

English: Bilingual.

German: Elementary.

Experience

Professional

Unity3D, C# Game Developer, Lead Developer

Globant

Santiago, Chile (Hybrid)

Mar. 2020–Jan. 2024 (3 yrs 11 mos)

Collaborated with NWay/Hasbro on *Power Rangers: Morphin Legends*, and ABinBev *Reign Of Titans*, and solutions for clients such as: Big Fish Games, Aristocrat & Oculus. My role included: gameplay technical design and development, graphics, scalable game architecture, UI/UX, SDK Integration, analytics, CI build pipeline, live content (Addressables), team planning & mentoring, optimization, leadership responsibilities and delivery standards.

Unity3D, C# Game Developer

Gamaga, Ltd

Santiago, Chile (On-site)

Jul. 2017–Mar. 2020 (2 yrs 9 mos)

Collaborated on projects such as *Operate Now : Hospital* (30M+ downloads), *Holly's Home Design*, *Banana Kong* (100M+ downloads) and *Red Crimes: Hidden Murders*, implementing technical features, integrating new content, live content (AssetBundles), SDK Integration, bug fixing, optimization, and tools. Increased major KPIs. Learnt leading skills, LiveOps, planning & mentoring, scalable architecture design, CI build pipeline and delivery standards.

Unity3D, C# Game Developer

LearnSafari

Melbourne, Australia (Remote)

Nov. 2015–Nov. 2016 (1 yr 2 mos)

Development of the game *Learn Safari*. A educational game meant to teach children Spanish through different lessons with multiple interactive mini-games and a narrative story to follow. My first professional role implementing gameplay mechanics, graphics, UX/UI logic, quest systems and mini-games. Learnt many development paradigms.

Internship

Game Development General Laboratory

UCV, Computer Graphics Center

Caracas, Venezuela (On-site), Prof. Esmitt Ramírez

Apr. 2015–Aug. 2015 (5 mos)

Writing, researching and developing theoretical and practical material for a general laboratory on game development using Unity3D within the faculty.

Vocational

Teacher Assistant, Operative Systems

UCV, Faculty of Sciences

Caracas, Venezuela (On-site), Prof. Robinson Rivas

Mar. 2012–Jul. 2012 (5 mos)

Lecturing laboratories on operative systems using the C programming language, system instructions and shell commands, use of threads and processes, file systems and parallel programming.

Education

Licentiate Degree in Computer Science, Faculty of Sciences

Caracas, Paseo Los Ilustres

Central University of Venezuela (UCV), Graduated with Honors

2009–2016

Specialization: Computer Graphics.

Master Thesis

Voxel Shading and Cone Tracing for Global Illumination [↗](#)

Prof. Esmitt Ramírez, *Faculty of Sciences, Computer Science Department, Computer Graphics Center*

A real-time dynamic global illumination approach based on cone tracing for emissive, diffuse and specular surfaces utilizing voxel shading and compute shaders. Per-review paper published for the 2016 XLII Latin American Computing Conference. [↗](#)

Conferences & Game Jams

Caracas - Venezuela | Global GameJam 2015, 2016, 2017, 2018: A game jam global event where you have to make a game in 48 hours. I collaborated on the design of mechanics and development of these games: "Kidz Solution" [↗](#), "The Haunt" [↗](#), "Echo Switch" [↗](#) and "Emission" [↗](#)

Caracas - Venezuela | 5th JOINCIC 2012: A computer science conference with many talks and courses of different topics on computer science such as web development, game development, robotics, parallel computing, data processing, etc.

Caracas - Venezuela | CEIDEC 2012 - UCV GameDev Contest: A scientific research and development conference with a broad range of talks from different areas such as maths, physics, biology and computer science. Developed the game "Hybris" [↗](#) using Unity3D along with many teammates on different roles for the GameDev Contest, I worked mostly on artificial intelligence and game mechanics. Hibris is a god game where the player has to save humanity from imminent doom using different powers.

Hobbies & Interests

Gaming: I also enjoy playing video games as much as working on game development, I mostly game on PC or Consoles, and a few mobile games too. I like to learn the game mechanics, graphics or systems and deconstruct or think how they were implemented. Working on games has in many ways changed my personal experience while playing. Let's share our favorite games!

Cooking & Food: I have been home cooking for as far back as I can remember; cooking was a bonding time for me and my mother. I also consider myself a bit of a foodie, always seeking new places to try. I have some classic go-to recipes, and I'm always willing to try new things and share what I know.

Music & Instruments: A significant portion of who I am is shaped by my passion and near obsession with music. I research and collect music from different eras and genres. I've been playing the piano and classical guitar for a few years, and I also know a little bit about music theory.

Movies: I don't consider myself on the level of some cinephiles, but it's something I do enjoy once in a while. Throughout my life, I have accumulated a substantial collection of films in memory. I occasionally enjoy doing a little research into more unknown titles or cult classics. I'm down to share some recommendations.
